Fladbæk Strand

Fladbæk Strand is a family-friendly beach diving area at the end of Fladbækvej, where there is a fire pit and several table bench sets, as well as a public toilet in the forest behind the beach.

The site is reached by driving through the forest along small roads and parking directly at the beach.

The area is particularly suitable for underwater hunting, and you can search a large section along the coast and out before the depth exceeds 4 metres.

The bottom conditions consist of alternating sandy bottom, scattered large stones and eelgrass.

Camping is not permitted in the area.

Address: Fladbækvej, 6430 Nordborg

Geokoordinates: 55.018614, 9.906150

Google Earth coordinates: 55°01'07.0"N 9°54'22.1"E

Difficulty level: 1-2 (1-5)

Depth: 1 - 4 metres
